Treadmill

DHS 9520

One of the most popular types of exercise equipment is the treadmill, which offers a very effective workout. Walking is well tolerated by everyone, regardless of fitness level and does not affect most back problems. As endurance increases, the treadmill can be used for jogging and / or diversified training. If fitness and / or weight loss is one of the main goals, treadmills may be one of the best ways to accomplish these goals.

SPECIFICATIONS:

Electric motor power: 2.5 CP

Maximum speed: 20 km/h

Minimum speed: 1 km/h

Color: Grey, Black

Incline Type: Electric

Foldable: YES

Running Surface: 1500x520 mm

Computer Functions: pulse, tilt, time, speed, body fat, distance, burned calories

Use: Commercial

Maximum User Weight: 140 kg

Net weight: 110 Kg

Gross weight: 136 kg

Automatic tilt: 0-20 degrees

Screen: TFT 10.2"

MP3 - Jack-Jack connectivity 3,5mm, cable included

USB port for multimedia connectivity and mobile device charging

20 Fitness programs: P1-P20

Folding locking system

Silicone wheels for easy transport

It folds (on the cylinder) to be easily stored.

Width: 98 cm

Height: 44 cm

Length: 224 cm

The stationary fitness bike is used to increase the general level of fitness and for the training necessary to participate in various cycling competitions. They are also used for physiotherapy because it has a low impact, it is safe and very effective in improving the cardiovascular system. The movements performed with the magnetic bicycle do not put pressure on the joints and do not impose sudden movements.

SPECIFICATIONS:

Technology: Mechanical

Flywheel Weight: 3 kg

Peddaling Direction: Both ways

Foldable: NO

Peddaling Resistance Adjustment: Manual, 8 settings

Chair Adjustment: Horizontal/Vertical

Computer Functions: Duration, speed, distance, calories burned, pulse

Gross weight: 23 kg

Net weight: 19.5 kg

Material: Steel

Colour: Grey

Box Dimensions: 64x25.5x56cm

Assembly dimensions: 49x116x70cm (l x H x L)

Maximum User Weight: 120 kg

Technical Specifications:

- 5 steps for adjusting the seat height
- maximum seat height - 85 cm (80 cm from sitting to pedal)
- minimum seat height - 70 cm (64 cm from sitting to pedal)

This horizontal bike is equipped with a unique system that allows you to move your arms and legs at the same time. The bike is very useful in recovery exercises.

SPECIFICATIONS:

Technology: Mechanical

Flywheel Weight: 5 kg

Peddaling Direction: One way

Foldable: NO

Transmission: Belt

Peddaling Resistance Adjustment: Manual, 8 settings(feet) / Only manual for hands

Chair Adjustment: Horizontal/Vertical

Computer Functions: Duration, speed, distance, calories burned, pulse

Use: Home/Semi-commercial

Gross weight: 41.5 kg

Net weight: 34 kg

Material: Steel. Colour: Black-Grey

Box Dimensions: 114×25×82.5 cm

Dimensions after Assembly: 128×61.5×126 cm

Maximum User Weight: 120 kg

Technical Specifications:

Aluminum handles for arms with two ways of positioning the hands.

Rubber straps for pedal mounting. Adjustable back foot for bumps.

Front wheels for easy transport. Backrest and ergonomic seat.

Possibility of individual movement of the hands in relation to the feet.

www.dhsfitness.ro

SPECIFICATIONS:

Technology: Magnetic

Flywheel weight: 1.5 kg

Folds: YES

Pedalling direction: One way

With a simple and elegant design with LED display, equipped with headlight and disc brake, the DHS electric scooter can take you anywhere. Helped by a powerful 250W motor with full wheels with HOLLOW FLEX technology that saves you from the worry of a rubber wedge, over a distance of up to 25 km, riding on electric scooters becomes a pleasure. Equipped with CRUISE CONTROL system, the two gears change automatically. The small size makes the adult scooter easy to transport and store.

SPECIFICATIONS:

Motor power: 250 W

Technology: Li-Ion

Battery capacity: 7.5Ah

Material: Aluminum

Color: Black, Blue

Maximum user weight: 120 kg

Wheel Size: 10 "/ 10"

Net product weight (kg): 13.5

Box size: 113x18x54 cm

Gross weight: 14.5 kg

Dimensions after assembly: 110x43x116 cm

Folded dimensions: 110x43x51 cm

Other Features:

- solid rubber with hollow flex technology that allows a degree of damping close to that of a rubber with chamber
- autonomy - about 25 km
- is suitable for users with a height of at least 140 cm
- the distance from the platform to the handles on the handlebars is approx. 80 cm
- platform size: 36 x 15 cm

Handle type: Rubber grip

Bearing type: 608Z

Ground clearance: 8 cm

Maximum degree of inclination: 12 degrees

Operating temperature: 10 - 40 degrees Celsius

Charging time: 3-4 hours

Supply voltage: 42V / 2A

Length: 110 cm

Width: 43 cm

Height: 116 cm

www.dhsfitness.ro

Scooter

DHS 230 Matte Black

The DHS Fitness 250, 230, 200 and 205 scooters come with a major improvement: the joining of the main components is no longer done by welding but the fastening in screws is used. This leads to a more solid construction than previous models. Folding and unfolding is now done by a bayonet mechanism. Compared to the classic clamp model, this mechanism is easier to use and has increased reliability. All models of scooters fold, have a jack and a shoulder strap for easy transport and storage.

SPECIFICATIONS:

Use: Adult / Children

Technology: Bolt connections

Material: Aluminum

Colour: Matte Black

Bearing type: ABEC 7

Wheel Dimension: 230 mm

Box Dimensions: 15 x 77 x 38.5 cm

Dimensions after Assembly: 105 x 100 x 50 cm

Dimensions(folded): 40 x 85 x 15 cm

Maximum User Weight: 120 kg

Net weight: 6.2 kg

Gross weight: 7.2 kg

Technical Specifications:

Front suspension, Shoulder strap, Jack, Bayonet folding, Disc brake, Platform surface area 15x35cm, Handlebar adjustable on four preset height levels: 95/100/105/110 cm; Minimum handlebar height: 85 cm Disc brake (rear wheel).

Minimum age of use 6 years, under adult supervision.

Grip type: Rubber grip

Use: Outdoor

Ground Clearance: 7cm
